

Ladder Guard

Prevent unauthorised access on your construction site with a Hacketts Lockable Ladder Guard.

Specification

- High Grade Lightweight Steel
- Powder Coated in Red as standard, your corporate colours available
- Body constructed from 20swg lightweight steel with full safety edges 350cm x 1500cm
- Rung hooks made of 10mm dia solid steel bar
- Locking chain is 450mm long

The Hacketts Ladder Guard is easily attached to the rungs of a ladder with hooks, preventing access to restricted areas and providing a clear visual deterrent.

Use the Hacketts Ladder Guard on-site – Ensure that you are Health & Safety Compliant.

Can be supplied with Padlocks – Keyed Alike or Combination.
