Multi Purpose Bracket

The Hacketts Multi Purpose Bracket is one of the most popular brackets in a scaffolders portfolio.

Specification:

- Manufactured from very high strength steel
- Made from 150mm tube, 48.3mm long
- Connector loop made from 16 mm solid steel bar
- Fully tested and certificated by Lloyds British Testing

The flexible design of the Hacketts Multi Purpose Bracket enables this product to be suitable for numerous applications including anchor points for harnesses, rope lines, Ginny wheels and netting supports.

Designed to be attached to scaffolding with any standard fitting.
