Quality Construction Products

Self Closing Handrail Coupler

Easily add a manual drop safety bar to create a physical barrier to restricted areas with a Hacketts Self Closing Handrail Coupler

Specification:

- Manufactured from High Grade Steel
- Insert Standard 2 inch Scaffold Pipe
- Powder Coated in Red as standard, your corporate colours available.

The Hacketts Self Closing Handrail Coupler is designed to prevent the drop bar being left in the open position and can easily accommodate any length of scaffold to create a barrier.

As one of the leading manufacturers in the UK, Hacketts have a comprehensive range of Quality Construction Products available for prompt delivery. Bespoke items can also be designed and manufactured to your specific requirements.
